

SAFER TECHS SAFER BUSINESSES SAFER HOMES

Depend on us to help navigate an ever-changing marketplace. We're ready to support your transition to lower GWP, mildly flammable A2L refrigerants.

Worthington Enterprises is proud to introduce our complete line of Class A2L refrigerant cylinders.

As a market leader in pressure cylinder design and manufacturing, we are committed to delivering solutions designed to meet the evolving needs of our customers. Our cylinders made to store and transport mildly flammable A2L refrigerant gases include distinguishing features to ensure uncompromised safety during handling and usage.

Features:

- Available in sizes ranging from 30 to 1,000 lbs
- Distinctive markings and valve configuration to help ensure technician safety
- Engineered for time-tested durability
- Manufactured in ISO 9002 certified facilities to meet AHRI, DOT and TC requirements
