FORKLIFT CYLINDERS

The Worthington Enterprises Forklift Cylinders are the safe and reliable solution for your fleet. Designed to meet the diverse needs of material handling operations, products include a variety of high-quality steel, aluminum, and translucent composite cylinders. These cylinders are compatible with a wide range of forklift models and are available in multiple sizes and capacities to ensure optimal fit and function.

ALUMINUM FORKLIFT PRODUCT FEATURES

- Durable construction
- Lightweight
- Stackable
- Low maintenance
- Stable base
- Tallest foot ring in industry
- Corrosion-resistant
- Non-sparking
- Multiple valve configurations adaptable to customer needs
- Clean, dry and flake-resistant interiors

STEEL FORKLIFT PRODUCT FEATURES

- Superior durability and economy
- Designed for lightweight strength
- Rugged, damage-resistant all-steel construction
- Rust-inhibiting Durabond powder coat paint
- Economical product line
- Outstanding delivery and service
- Multiple valve configurations adaptable to customer needs
- Dry, clean interiors

COMPOSITE FORKLIFT PRODUCT FEATURES

- Liquid draw valve
- Horizontal Use or Vertical Use
- Lightweight
- Translucent construction
- Rust resistance
- BLEVE-free*

*Boiling Liquid Expanding Vapor Explosion (BLEVE) occurs when a liquid within a container reaches a temperature above its boiling point, causing the vessel containing the liquid to rupture
