PORTABLE PROPANE CYLINDERS

The Worthington Enterprises portable propane cylinders are the perfect solution for fueling your outdoor grill, providing temporary heat, powering recreational vehicles, fire pits, and other propane-dependent appliances. Constructed from high-quality industrial-grade steel and translucent composite materials, Worthington's tanks ensure both durability and safety, catering to residential, commercial, and recreational needs.

STEEL PORTABLE PROPANE CYLINDER PRODUCT FEATURES

- Rugged, high-quality steel
- Durabond powder coat paint to prevent rusting
- Handles located on either side of the collar for easy carrying
- X-ray and hydrostatic tested
- DOT approved

COMPOSITE PORTABLE CYLINDERS PRODUCT FEATURES

- Lightweight
- Translucent construction
- Rust resistance
- OPD valve
- Wide base
- Vertical use only
- BLEVE-free*

*Boiling Liquid Expanding Vapor Explosion (BLEVE) occurs when a liquid within a container reaches a temperature above its boiling point, causing the vessel containing the liquid to rupture
