

INNOVATIVE TECHNOLOGY DESIGNED TO MAKE TANK MONITORING EASIER THAN EVER.

Featuring Otodata's state-of-the-art monitoring technology protected by a durable lid, SmartLid is the cutting-edge integrated lid and tank monitor solution that keeps service calls to an absolute minimum.

SMARTLID[®]

EASY TO INSTALL.

The lid arrives with the monitor pre-activated, making installation in the field quick and easy with no tools needed.

EASY TO USE.

With a strong signal, long battery life and a convenient user-friendly app, you'll never be far from the accurate tank level information you need.

EASY TO SELL.

SmartLid will transform your Worthington Industries vertical and horizontal tanks in ways that will boost sales and separate yourself from competition.

LESS GUESSWORK. LESS SERVICE CALLS. MORE PEACE OF MIND.

Combining cutting-edge monitoring technology with Worthington Industries' legendary reliability, SmartLid is designed with you in mind.

FEATURES

- Quick and easy installation, no tools needed
- Waterproof polypropylene casing
- Long-lasting lithium thionyl chloride battery with super capacitor
- Clipped-in monitor ensures strongest signal
- Fits most horizontal above-ground tanks

PUT A LID ON UNNECESSARY SERVICE TRIPS

- Longest battery life in the industry
- Dual SIM and LTE technology for maximum coverage
- Automatic network updates for easier management
- Unlimited reports and alerts
- An app delivering real-time gas level data
